I am passionate about writing well-designed, testable and efficient code in React, Javascript, and NodeJS, and of course, debugging is my good helper in that. I am motivated, hardworking, driven by results and dedicated. A flexible communicator who priorities cooperation in achieving goals. I am keen to gain more knowledge and experience in this field, that is why I am willing to offer my full commitment and be a valuable addition to your team and projects.

## SKILLS

ReactJS

JavaScript

CSS3

HTML5

NodeJS

ExpressJS

KnexJS

Database

MySQL

Git

StoryBook

## EDUCATION

### Full-Stack Web Development Hack Your Future

02/2019 – 10/2019

Copenhagen, Denmark

### Computer Science, Bachelor Degree State University of Tetovo

09/2008 – 06/2013

Tetovo, North Macedonia

## WORK EXPERIENCE

### Full-Stack Web Developer, final project Hack Your Future & Optimum Voyage

09/2019 – 10/2019

Copenhagen, Denmark

Collaboration with Optimum Voyage ([www.optimumvoyage.com](http://www.optimumvoyage.com)). The project is the bridge between Optimum Voyage cloud based service, reporting from the ships and the onshore operators of the ships. With help of this platform operators (users) are able to get an overview of their full fleets position, activity and if needed a specific ship's current status and history.

Achievements/Tasks  
– Built project using React, NodeJS, ExpressJS, KnexJS, MySQL, Git, MaterialUI, StoryBook

## VOLUNTEER EXPERIENCE
